INDEX TO AUTHORS

Brackets indicate a senior author's professional history

A

ADAMS, W. ROBERT. See MAURO and ADAMS, suppl., p. 177

ANDERSSON-CEDERGREN, EBBA. See MUSCATELLO, ANDERSSON-CEDERGREN, AZZONE, and VON DER DECKEN, suppl., p. 201

ARCOS, JOSEPH C., GOSCH, HANS H., and ZICKAFOOSE, DAVID. Fine structural alterations in cell particles during chemical carcinogenesis. III. Selective action of hepatic carcinogens other than 3'-methyl-4-dimethylaminoazobenzene on different types of mitochondrial swelling. Effect of stimulated liver growth, 23

AZZONE, G. F. See MUSCATELLO, ANDERSSON-CEDERGEN, AZZONE, and VON DER DECKEN, suppl., p. 201

B

BEER, MICHAEL. See ZOBEL and BEER, 335

BERNHARD, WILHELM. See LEDUC and BERNHARD, 437

BIRGE, W. J. See SALISBURY, BIRGE, DE LA TORRE, and LODGE, 353

BLUMBERG, J. M. See ZACKS and BLUMBERG, 517

BRENTANI, R. See RABINOVITCH, BRENTANI, FERREIRA, FAUSTO, and MAACK, 105

BUNGE, MARY BARTLETT, BUNGE, RICHARD P., and RIS, HANS. Ultrastructural study of remyelination in an experimental lesion in adult cat spinal cord, [151] 67

BUNGE, RICHARD P. See BUNGE, BUNGE, and RIS, 67

C

CALLAGHAN, JOHN J., and GRUN, PAUL. Incorporation of C^{14}-labeled maleic hydrazide into the root-tip cells of *Allium cernuum*, *Vicia faba*, and *Tradescantia paludosa*, [617] 567

CAMOUGIS, GEORGE. See MCALEAR, CAMOUGIS, and THIBODEAU, 133

CARO, LUCIEN G. Electron microscopic radioautography of thin sections: the Golgi zone as a site of protein concentration in pancreatic acinar cells, 37

CAVALIERI, LIEBE F. See HALL and CAVALIERI, 347

CHAPMAN, GEORGE B., and DAWSON, ALDEN B. Fine structure of the larval anuran epidermis, with special reference to the figures of Eberth, 425

CHAPMAN, J. A. See LOWTHER, GREEN, and CHAPMAN, 373

CHATTERJEA, J. B. See CHATTERJEE, SADHUKHAN, and CHATTERJEA, 113

CHATTERJEE, S. N., SADHUKHAN, P., and CHATTERJEA, J. B. Electron microscope studies on the hemoglobin molecules, 113

COLWIN, ARTHUR L., and COLWIN, LAURA HUNTER. Fine structure of the spermatozoon of *Hydroides hexagonus* (Annelida), with special reference to the acrosomal region, 211

—, and —. Changes in the spermatozoon during fertilization in *Hydroides hexagonus* (Annelida). II. Incorporation with the egg, 255

—. See COLWIN and COLWIN, 231

COLWIN, LAURA HUNTER, and COLWIN, ARTHUR L. Changes in the spermatozoon during fertilization in *Hydroides hexagonus* (Annelida). I. Passage of the acrosomal region through the vitelline membrane, [299] 231

—. See COLWIN and COLWIN, 211, 255

D

DALES, S., and SIMINOVITCH, L. The development of vaccinia virus in Earle's L strain cells as examined by electron microscopy, [617] 475

DANES, B. SHANNON, and STRUTHERS, MARY. The influence of iron-dextran complex on the strain L fibroblast, [299] 289

DAWSON, ALDEN B. See CHAPMAN and DAWSON, 425

VON DER DECKEN, ALEXANDRA. See MUSCATELLO, ANDERSSON-CEDERGREN, AZZONE, and VON DER DECKEN, suppl., p. 201

DE ROBERTIS, EDUARDO, and PELLEGRINO DE IRALDI, AMANDA. Plurivesicular secretory processes and nerve endings in the pineal gland of the rat, 361

E

EGYHÁZI, ENDRE, and HYDÉN, HOLGER. Experimentally induced changes in the base composition of the ribonucleic acids of isolated nerve cells and their oligodendroglial cells, 403

EPSTEIN, M. A. Some unusual features of fine structure observed in HeLa cells, 153

F

FAUSTO, N. See RABINOVITCH, BRENTANI, FERREIRA, FAUSTO, and MAACK, 105

FAWCETT, DON W., and REVEL, JEAN PAUL. The

sarcoplasmic reticulum of a fast-acting fish muscle, suppl., p. 89
FERREIRA, S. See RABINOVITCH, BRENTANI, FERREIRA, FAUSTO, and MAACK, 105
FREY-WYSSLING, A. See MOOR, MÜHLETHALER, WALDNER, and FREY-WYSSLING, 1

G

GALL, JOSEPH G. Centriole replication. A study of spermatogenesis in the snail *Viviparus*, 163
GEAR, J. H. S. See SILK, HAWTREY, SPENCE, and GEAR, 577
GLAUERT, AUDREY M., and HOPWOOD, DAVID A. The fine structure of *Streptomyces violaceoruber* (*S. coelicolor*). III. The walls of the mycelium and spores, 505
GOSCH, HANS H. See ARCOS, GOSCH, and ZICKAFOOSE, 23
GOTTERER, GERALD S., THOMPSON, THOMAS E., and LEHNINGER, ALBERT L. Angular light-scattering studies on isolated mitochondria, [151] 15
GREEN, N. M. See LOWTHER, GREEN, and CHAPMAN, 373
GRUN, PAUL. See CALLAGHAN and GRUN, 567

H

HALL, CECIL E., and CAVALIERI, LIEBE F. Four-stranded DNA as determined by electron microscopy, 347
HAMPTON, JAMES C., and QUASTLER, HENRY. Combined autoradiography and electron microscopy of thin sections of intestinal epithelial cells of the mouse labeled with H^3-thymidine, [151] 140
HARRIS, PATRICIA. See MAZIA, MITCHISON, MEDINA, and HARRIS, 467
HAWTREY, A. O. See SILK, HAWTREY, SPENCE, and GEAR, 577
HAY, ELIZABETH D. Fine structure of an unusual intracellular supporting network in the Leydig cells of *Amblystoma* epidermis, [465] 457
HOLMES, RICHARD, and WOLFE, SONYA W. Serum fractionation and the effects of bovine serum fractions on human cells grown in a chemically defined medium, 389
HOPWOOD, DAVID A. See GLAUERT and HOPWOOD, 505
HULTIN, T. See MORGAN, PERLMANN, and HULTIN, 411
HYDÉN, HOLGER. See EGYHÁZI and HYDÉN, [465] 403

K

KALANT, H. See LEESON and KALANT, 95
KARNOFSKY, DAVID A. See SIMMEL and KARNOFSKY, 59

L

LEDUC, ELIZABETH H., and BERNHARD, WILHELM. Ultrastructural cytochemistry enzyme and acid hydrolysis of nucleic acids and protein, 437
LEESON, T. S., and KALANT, H. Effects of *in vivo* decalcification on ultrastructure of adult rat liver, 95
LEHNINGER, ALBERT L. See GOTTERER, THOMPSON, and LEHNINGER, 15
LILLIBRIDGE, CLINTON B. Membranes of the human pepsinogen granule, [151] 145
LOCKE, MICHAEL. Pore canals and related structures in insect cuticle, [617] 589
LODGE, J. R. See SALISBURY, BIRGE, DE LA TORRE, and LODGE, 353
LOWTHER, D. A., GREEN, N. M., and CHAPMAN, J. A. Morphological and chemical studies of collagen formation. II. Metabolic activity of collagen associated with subcellular fractions of guinea pig granulomata, 373
LUCK, DAVID J. L. Glycogen synthesis from uridine diphosphate glucose. The distribution of the enzyme in liver cell fractions, [299] 195

M

MAACK, T. See RABINOVITCH, BRENTANI, FERREIRA, FAUSTO, and MAACK, 105
MAURO, ALEXANDER, and ADAMS, W. ROBERT. The structure of the sarcolemma of the frog skeletal muscle fiber, suppl., p. 177
MAZIA, DANIEL, MITCHISON, J. M., MEDINA, HEITOR, and HARRIS, PATRICIA. The direct isolation of the mitotic apparatus, 467
MCALEAR, JAMES H., CAMOUGIS, GEORGE, and THIBODEAU, LLOYD F. Mapping of large areas with the electron microscope, [152] 133
MEDINA, HEITOR. See MAZIA, MITCHISON, MEDINA, and HARRIS, 467
MEEK, G. A., and MOSES, M. J. Microtubulation of the inner membrane of the nuclear envelope, [152] 121
MITCHISON, J. M. See MAZIA, MITCHISON, MEDINA, and HARRIS, 467
MOOR, H., MÜHLETHALER, K., WALDNER, H., and FREY-WYSSLING, A. A new freezing-ultramicrotome, [152] 1
MORGAN, W. S., PERLMANN, P., and HULTIN, T. Autoradiographic analysis on agar plates of antigens from subcellar fractions of rat liver slices, [465] 411
MOSES, MONTROSE J. Spermiogenesis in the crayfish (*Procambarus clarkii*). II. Description of stages, 301
—. See MEEK and MOSES, 121
MÜHLETHALER, K. See MOOR, MÜHLETHALER, WALDNER, and FREY-WYSSLING, 1
MUSCATELLO, U., ANDERSSON-CEDERGREN, EBBA, AZZONE, G. F., and VON DER DECKEN, ALEXANDRA. The sarcotubular system of frog skeletal muscle. A morphological and biochemical study, suppl., p. 201

N

NEEDHAM, DOROTHY M. See WAKID and NEEDHAM, 136
NEUMANN, MARILYN G. See WYSS, NEUMANN, and SOCOLOFSKY, 555

P

PEACHEY, LEE D. Structure of the longitudinal body muscles of amphioxus, suppl., p. 159
—, and RASMUSSEN, HOWARD. Structure of the toad's urinary bladder as related to its physiology, 529
PELLEGRINO DE IRALDI, AMANDA. See DE ROBERTIS and PELLEGRINO DE IRALDI, 361
PERLMANN, P. See MORGAN, PERLMANN, and HULTIN, 411
PORTER, KEITH R. The sarcoplasmic reticulum: Its recent history and present status, suppl., p. 219

Q

QUASTLER, HENRY. See HAMPTON and QUASTLER, 140

R

RABINOVITCH, M., BRENTANI, R., FERREIRA, S., FAUSTO, N., and MAACK, T. Alkaline ribonuclease activity increase in rat kidney cortex and liver after trypan blue and other azo dyes administration, 105
RASMUSSEN, HOWARD. See PEACHEY and RASMUSSEN, 529
REGER, JAMES F. The fine structure of neuromuscular junctions and the sarcoplasmic reticulum of extrinsic eye muscles of *Fundulus heteroclitus*, suppl., p. 111
REVEL, JEAN PAUL. See FAWCETT and REVEL, suppl., p. 89
RIS, HANS. See BUNGE, BUNGE, and RIS, 67
—. See SZOLLOSI and RIS, 275

S

SADHUKHAN, P. See CHATTERJEE, SADHUKHAN, and CHATTERJEA, 113
SALISBURY, G. W., BIRGE, W. J., DE LA TORRE, L., and LODGE, J. R. Decrease in nuclear-Feulgen positive material (DNA) upon aging in *in vitro* storage of bovine spermatozoa, 353
SCHULZE, WOLFGANG. See WOLLENBERGER and SCHULZE, 285
SEDAR, ALBERT W. Electron microscopy of the oxyntic cell in the gastric glands of the bullfrog, *Rana catesbiana*. II. The acid-secreting gastric mucosa, 47
SILK, M. H., HAWTREY, A. O., SPENCE, I. M., and GEAR, J. H. S. A method for intracellular autoradiography in the electron microscope, [618] 577
SIMINOVITCH, L. See DALES and SIMINOVITCH, 475
SIMMEL, EVA B., and KARNOFSKY, DAVID A. Observations on the uptake of tritiated thymidine in the pronuclei of fertilized sand dollar embryos, [152] 59
SKOGLUND, C. R. Functional analysis of swim-bladder muscles engaged in sound production of the toadfish, suppl., p. 187
SMITH, DAVID S. Reticular organizations within the striated muscle cell. An historical survey of light microscopic studies, suppl., p. 61
—. The structure of insect fibrillar flight muscle. A study made with special reference to the membrane systems of the fiber, suppl., p. 123
SOCOLOFSKY, M. D. See WYSS, NEUMANN, and SOCOLOFSKY, 555
SPENCE, I. M. See SILK, HAWTREY, SPENCE, and GEAR, 577
STRUTHERS, MARY. See DANES and STRUTHERS, 289
SUGANUMA, ATSUSHI. The plasma membrane of *Staphylococcus aureus*, 292
SZOLLOSI, DANIEL G., and RIS, HANS. Observations on sperm penetration in the rat, [300] 275

T

THIBODEAU, LLOYD F. See MCALEAR, CAMOUGIS, and THIBODEAU, 133
THOMPSON, THOMAS E. See GOTTERER, THOMPSON, and LEHNINGER, 15
DE LA TORRE, L. See SALISBURY, BIRGE, DE LA TORRE, and LODGE, 353

V

VERATTI, EMILIO. Investigations on the fine structure of striated muscle fiber, suppl., p. 1

W

WAKID, N. W., and NEEDHAM, DOROTHY M. Effect of estradiol injection on the cytoplasmic fractions of the myometrium in the ovariectomized rat, [152] 136
WALDNER, H. See MOOR, MÜHLETHALER, WALDNER, and FREY-WYSSLING, 1
WOLFE, SONYA W. See HOLMES and WOLFE, 389
WOLLENBERGER, ALBERT, and SCHULZE, WOLFGANG. Mitochondrial alterations in the myocardium of dogs with aortic stenosis, [300] 285
WYSS, ORVILLE, NEUMANN, MARILYN G., and SOCOLOFSKY, M. D. Development and germination of the azotobacter cyst, [618] 555

Z

ZACKS, S. I., and BLUMBERG, J. M. Observations on the fine structure and cytochemistry of mouse and human intercostal neuromuscular junctions, [618] 517
ZICKAFOOSE, DAVID. See ARCOS, GOSCH, and ZICKAFOOSE, 23
ZOBEL, C. RICHARD, and BEER, MICHAEL. Electron stains. I. Chemical studies on the interaction of DNA with uranyl salts, [466] 335

INDEX TO SUBJECTS

A

Acrosomal region, of spermatozoon of *Hydroides hexagonus* (Annelida), fine structure of during fertilization, 211, 231, 255

Animals and Plants

Amphioxus, suppl., p. 159
Cat, 67
Cattle, 353
Crayfish, 121, 301
Dog, 285
Fish, suppl., pp. 89, 111, 187
Frog, 47, 425, suppl., pp. 177, 201
Guinea pig, 37, 373
Human, 113, 145, 389, 517, 153
Insect, 589, suppl., p. 123
Monkey 577
Mouse, 140, 289, 475, 517
Rat, 15, 23, 95, 105, 136, 275, 195, 361, 403, 437
Rabbit, 411
Salamander, 457
Sand dollar, 59
Sea urchin, 467
Snail, 163
Toad, 529
Vicia faba, 567
Worm, 211, 231, 255

Antigens, from subcellular fractions of rat liver slices, autoradiographic analysis of agar plates of, 411

Azo dyes, trypan blue and others, increase in alkaline ribonuclease activity in rat kidney cortex and liver after administration of, 105

B

Bacteria, *Azotobacter vinelandii*, development and germination of cyst, EM study, 555
—, *Staphylococcus aureus*, plasma membrane of, EM study, 292

Bladder, urinary, of toad, structure as related to physiology, studied in EM, 529

Blood, hemoglobin molecules, EM study, 113

C

Carcinogenesis, chemical, fine structural alterations in liver cell particles during, different types of mitochondrial swelling, 23

Centriole replication, in spermatogenesis in the snail *Viviparus malleatus*, EM study, 163

Collagen formation, granulomata, of guinea pig, metabolic activity of collagen associated with subcellular fractions, 373

Cuticle, of insects, pore canals and related structures in, EM study, 589

Cyst, of *Azotobacter vinelandii*, development and germination of, EM study, 555

D

Decalcification, *in vivo*, effects of on ultrastructure of adult rat liver, 95

DNA, four-stranded, as determined by EM, 347
—, interaction with uranyl salts, studies on electron stains, 335
—, nuclear Feulgen-positive material, decrease of upon aging in *in vitro* storage of bovine spermatozoa, 353
—, RNA, and proteins, enzyme and acid hydrolysis of, 437

E

Electron microscopy, electron stains for chemical studies of interaction of DNA with uranyl salts, 335
— microscopy, mapping of large areas with, 133
— microscopy, new freezing-ultramicrotome for, 1

Embryos, fertilized, sand-dollar, uptake of tritiated thymidine in pronuclei of, 59

Enzyme and acid hydrolysis of DNA, RNA, and proteins, 437

Epidermis, larval anuran, with special reference to figures of Eberth, fine structure of, 425
—, of *Amblystoma*, fine structure of intracellular supporting network in Leydig cells of, 457

Epithelial cells, of mouse intestine, thin sections labeled with H^3-thymidine, studied by EM and autoradiography, 140

Estradiol injection, effect of on cytoplasmic fractions of myometrium in ovariectomized rat, 136

F

Fertilization, in *Hydroides hexagonus* (Annelida), changes in spermatozoon during, studied in EM, 211, 231, 255

Fibroblast, Earle's strain L, development of vaccinia virus in, studied in EM, 475
—, strain L, influence of iron-dextran complex on, 289

Figures of Eberth, in larval anuran epidermis, studied in EM, 425

Fractions, cytoplasmic, of myometrium in ovariectomized rat, effect of estradiol injection on, 136

—, subcellular, of granulomata, in guinea pig, metabolic activity of collagen associated with, 373
—, subcellular, of rat liver slices, autoradiographic analysis of agar plates of antigens from, 411
Freezing-ultramicrotome, new design, 1
Fungus, *Streptomyces violaceoruber*, fine structure of walls of mycelium and spores, 505

G

Gastric glands, oxyntic cell in acid-secreting mucosa of, in frog, studied in EM, 47
Germination and development of cyst of *Azotobacter vinelandii*, EM study, 555
Glycogen synthesis, from uridine diphosphate glucose, distribution of enzyme in liver cell fractions, 195
Golgi zone, pancreatic acinar cells, as site of protein concentration, studied by EM and radioautography, 37
Granulomata, in guinea pig, metabolic activity of collagen associated with subcellular fractions of, 373

H

Hemoglobin molecules, EM study of, 113
Human cells, grown in chemically defined medium, serum fractionation and effects of bovine serum on, 389
Hydrolysis of DNA, RNA, and proteins, by acids and enzymes, 437

I

Intestinal epithelial cells, of mouse, thin sections of, labeled with H^3-thymidine, studied by EM and autoradiography, 140
Intracellular autoradiography, in EM, method for, incorporation of thymidine-H^3 in monkey kidney cells, 577
— supporting network, in Leydig cells of epidermis of *Amblystoma*, fine structure of, 457
Iron-dextran complex, influence of on strain L fibroblast, 289
Isolation of mitotic apparatus, of sea urchin eggs, 467

K

Kidney cells, in monkey, incorporation of thymidine-H^3 in, method for intracellular autoradiography in EM, 577

L

Larval anuran epidermis, with special reference to figures of Eberth, fine structure of, 425
Leydig cells, in epidermis of *Amblystoma*, fine structure of intracellular supporting network in, 457
Light-scattering, angular, studies on isolated mitochondria, 15
Liver cells, fine structural alterations in cell particles during chemical carcinogenesis, mitochondrial swelling, 23
—, rat, effects of *in vivo* decalcification on ultrastructure of, 95
— slices, rat, autoradiographic analysis of agar plates of antigens from subcellular fractions of, 411

M

Mapping of large areas with EM, 133
Membrane, inner, of nuclear envelope, microtubulation of, in crayfish, EM study, 121
—, plasma, of *Staphylococcus aureus*, EM study, 292
— systems, in fiber of fibrillar flight muscle of insects, structure of, suppl., p. 123
Membranes, of pepsinogen granule, in humans, EM study, 145
Mitochondria, isolated, angular light-scattering studies on, 15
Mitochondrial alterations, in myocardium of dogs with aortic stenosis, EM study, 285
— swelling, selective action of hepatic carcinogens on, effect of stimulated liver growth, 23
Mitotic apparatus, of sea urchin eggs, direct isolation of, 467
Muscle cell, striated, reticular organizations within, light microscope studies, historical survey of, suppl., p. 61
— cells, in longitudinal body musculature of amphioxus, morphology studied in EM, suppl., p. 159
—, fast-acting, of fish, sarcoplasmic reticulum of, EM study, suppl., p. 89
— fiber, skeletal, in frog, structure of sarcolemma of, suppl., p. 177
— fiber, striated, fine structure of, studied by light microscopy, suppl., p. 1
—, fibrillar flight, of insects, structure of, with special reference to membrane systems of fiber, suppl., p. 123
—, in mouse and human, fine structure and cytochemistry of neuromuscular junctions in, 517
—, skeletal, of frog, sarcotubular system of, morphological and histochemical study, suppl., p. 201
Muscles, extrinsic eye, of *Fundulus heteroclitus*, fine structure of neuromuscular junctions and sarcoplasmic reticulum of, suppl., p. 111
—, swim-bladder, engaged in sound production of toad fish, functional analysis of, suppl., p. 187
Mycelium, and spores of *Strepromyces violaceoruber*, fine structure of walls of, 505
Myelin, remyelination in experimental lesion in adult cat spinal cord, EM study, 67
Myocardium, of dogs with aortic stenosis, mitochondrial alterations in, EM study, 285
Myometrium, of ovariectomized rat, effect of estradiol injection on the cytoplasmic fractions of, 136

N

Nerve cells and their oligodendroglial cells, experimentally induced changes in base composition of RNA of, 403
— endings, and plurivesicular secretory processes in pineal gland of rat, studied in EM, 361
Neuromuscular junctions, in mouse and human, fine structure and cytochemistry of, 517

– junctions and sarcoplasmic reticulum, of extrinsic eye muscles of *Fundulus heteroclitus*, fine structure of, suppl., p. 111
Nuclear envelope, microtubulation of inner membrane of, in crayfish, EM study, 121
– material (DNA), Feulgen-positive, decrease of upon aging in *in vitro* storage of bovine spermatozoa, 353

O

Oligodendroglial cells and nerve cells, experimentally induced changes in base composition of RNA of, 403
Oxyntic cell, in acid-secreting mucosa of gastric glands of frog, studied in EM, 47

P

Pancreatic acinar cells, Golgi zone as site of protein concentration, studied by EM and radioautography, 37
Pepsinogen granule, membranes of, in humans, EM study, 145
Pineal gland, of rat, plurivesicular secretory processes and nerve endings in, studied in EM, 361
Pore canals and related structures, in insect cuticle, EM study, 589
Pronuclei, of fertilized sand-dollar embryos, uptake of tritiated thymidine in, 59

R

Radioactive labels, glucose-C^{14}, incorporation into uridine diphosphate glucose, glycogen synthesis, 195
– labels, leucine-H^3, incorporation in Golgi zone as site of protein concentration in pancreatic acinar cells, 37
– labels, maleic hydrazide-C^{14}, incorporation into root-tip cells of *Allium*, *Vicia*, and *Tradescantia*, 567
– labels, valine-C^{14}, leucine-C^{14}, isoleucine-C^{14}, incorporation into rat liver antigens during incubation of liver slices, 411
– labels, thymidine-H^3, incorporation into monkey kidney cells, method for intracellular autoradiography in EM, 577
– labels, thymidine-H^3, in thin sections of intestinal epithelial cells, in mouse, EM and autoradiography, 140
– labels, tritiated thymidine, uptake in pronuclei of fertilized sand-dollar embryos, 59
Reticular organizations within striated muscle cell, light microscope studies, historical survey of, suppl., p. 61
Ribonuclease, alkaline, increase in activity, rat kidney cortex and liver, after trypan blue and other azo dye administration, 105
RNA, DNA, and proteins, enzyme and acid hydrolysis of, 437
–, of isolated nerve cells and their oligodendroglial cells, experimentally induced changes in base composition of, 403
Root-tip cells, of *Allium*, *Vicia*, and *Tradescantia*, incorporation of C^{14}-labeled maleic hydrazide into, 567

S

Sarcolemma, of skeletal muscle fiber, in frog, structure of, suppl., p. 177
Sarcoplasmic reticulum and neuromuscular junctions, of extrinsic eye muscles of *Fundulus heteroclitus*, fine structure of, suppl., p. 111
— reticulum of fast-acting fish muscle, EM study, suppl., p. 89
— reticulum, recent history and present status of, suppl., p. 219
Sarcotubular system of skeletal muscle, of frog, morphological and biochemical study, suppl., p. 201
Secretory processes, plurivesicular, and nerve endings, in pineal gland of rat, studied in EM, 361
Serum fractionation, effects of bovine serum fractions on human cells grown in chemically defined medium, 389
Sperm penetration, in rat, EM study, 275
Spermatogenesis, in snail *Viviparus malleatus*, centriole replication in, EM study of, 163
Spermatozoa, bovine, decrease of nuclear Feulgen-positive material (DNA) upon aging in *in vitro* storage of, 353
Spermatozoon, of *Hydroides hexagonus* (Annelida), with special reference to acrosomal region, fine structure of, 211, 231, 255
Spermiogenesis in crayfish (*Procambarus clarkii*), description of stages, EM study, 301
Spinal cord, of cat, remyelination in experimental lesion, EM study, 67
Spores, and mycelium, of *Streptomyces violaceoruber*, fine structure of walls of, 505
Stains, electron, chemical studies of interaction of DNA with uranyl salts, 335
Swim-bladder muscles engaged in sound production of toad fish, functional analysis of, suppl., p. 187

T

Trypan blue and other azo dye administration, increase in alkaline ribonuclease activity in rat cortex and liver after, 105

U

Ultramicrotome, freezing, new design, 1
Uridine diphosphate glucose, in glycogen synthesis, distribution of enzyme in liver cell fractions, 195
Urinary bladder, of toad, structure as related to physiology, studied in EM, 529

V

Virus, vaccinia, development of in Earle's L strain cells, studied in EM, 475
